Partnership

La Macina di San Cresci and Galleria360 have established a strategic collaboration to offer an opportunity to the artists in residence.

La Macina di San Cresci has a consolidated history of residence for artists and organization of artistic and cultural projects for the enhancement of the territory. Its location in the heart of Chianti area and the splendid historic building, from the 10th century, form an exciting combination. Freedom to create!

Galleria360 is a contemporary art gallery situated in the historical center of Florence, a city of art as excellent as its glorious past. The gallery was born from a shared passion and enthusiasm of the arts from Angela Fagu, for whom Florence and Contemporary Art do not represent two antithetical extremes. Through the works of high-level international artists, they give rise to new dialogues between reflection and criticism, art and thought, and especially art and life. Galleria360 stands out as a reference point for the international avant-garde scene.

HOW EXHIBIT

It is possible to organize an exhibition to the Galleria360 in Florence subordinated to a residence at La Macina di San Cresci for a minimum of 3 weeks.

The artist who intends to exhibit in Florence together with the project she/he wants to develop during the residency have to present the project for the exhibition.

Acceptance for the exhibition will be made by the Directors of La Macina di San Cresci and Galleria360.

Exhibition (solo or group)

There is the possibility of exhibiting the works
group show
